Action Taken Report Based on students Feedback 2023-24

The feedback from students for the academic year 2023-24 has been reviewed, highlighting the need for curriculum improvement and addressing concerns related to the relevance and practical application of academic content.

Sl. NO	Suggestions and Insights from Feedback and Survey	Action taken
1	Students request that all chapters be completed before the exams. Incomplete chapters cause significant difficulties.	The department focuses on completing all chapters before exams, adjusting the schedule, enhancing study sessions, and clearly communicating revised plans and expectations for effective preparation.
2	Students propose several enhancements: teachers should enhance their methods and use PowerPoint for classes, the college system needs significant upgrades	Teachers will enhance methods using PowerPoint; college system upgrades are under consideration.
3	Students suggest various improvements to the lab facilities to enhance the learning environment.	Lab facilities improvements are being considered following student suggestions.
4	Emphasize the need for better training resources and upgraded sports infrastructure to enhance their overall experience and well-being.	Action underway to improve training resources and sports infrastructure for enhanced student experience and well-being.
5	Students recommend prioritizing the enhancement of curriculum design and its effective implementation	Steps initiated to prioritize curriculum design enhancement and effective implementation based on student recommendations.
